Law firms have a number of unique IT challenges that few technology providers are prepared to handle. Atlantic-IT.net understands that cookie-cutter services focused on common IT needs will not meet the unique requirements of today's law firms.

Atlantic-IT.net has the knowledge, experience and resources to support your operations from end to end while ensuring the security and confidentiality of your client information. Partnering with us enables you to concentrate on serving your clients, with the peace of mind that all of your technology needs will be handled expertly and efficiently.

At Atlantic-IT.net, our commitment is to support every technology within your operations so that you can focus on your law practice. We believe it is a privilege for our clients to trust us with their business-critical IT needs.

Expertise Law Firms Need

Law Practice and Case Management Solutions — Your practice and case management software is the hub of your operation. Our consultants and technicians have the know-how to support your calendaring, contact management, document management, and time and billing solutions. In addition, we can help you utilizes wireless and mobile access technologies to increase the flexibility of your operations and enable a "virtual office" environment.

Voice Communications and Mobility — IP communications systems can help law firms improve productivity, streamline operations and reduce costs. We provide solutions that enable you to manage voice calls, email, and more from a single interface. We can also help you extend the features and functionality of your communications system to your mobile devices.

Document Management Systems — Automated document management has become critical in today's law firms. We can help ensure that your document management solution and scanning systems perform optimally and integrate seamlessly with email. We can also assist you with remote and mobile document access, archival, security and data protection.

Atlantic-IT.net can support the industry-leading solutions used in many law practices today.

Business-Critical IT Solutions

Increase efficiency and achieve your business goals with cost-effective solutions delivered by our experts.

Backup and Disaster Recovery — Without an effective backup and disaster recovery solution, organizations are at risk of significant downtime and data loss should disaster strike. Atlantic-IT protects critical data and helps law firms recover from disaster as quickly as possible.

Network Services — The Atlantic-IT.net team brings a broad range of skills to network design, administration and implementation projects. Our structured methodology enables us to deliver high-quality solutions quickly to help maximize your ROI.

Security — Atlantic-IT.net provides comprehensive security and data encryption solutions, and employs security specialists who keep up-to-date on the advanced threats plaguing corporate networks. Remote monitoring and management allows us to rapidly detect and mitigate security breaches and keep your defenses up-to-date as security risks and business needs change.

Printing — Atlantic-IT.net can help you minimize printing costs by directing print jobs to the most cost-effective printer, controlling color usage and reducing waste. We also provide solutions that enable firms to automatically bill clients for printing costs.

Cloud — Cloud computing allows firms to pay for just what they need, when they need it, instead of investing in the entire environment. Atlantic-IT.net's cloud computing and outsourced IT services combine to create a comprehensive yet flexible solution that enables law firms to consumer IT rather than purchasing and managing it.

Comprehensive IT Support

Stay current with technology advances, eliminate IT management headaches and minimize downtime for a fixed monthly cost.

Atlantic-IT.net has developed a comprehensive solution that combines managed services, on-site support and consulting services in a cost-effective and predictable monthly budget. Our all-encompassing solution touches every aspect of the IT infrastructure, from a business perspective as well as a technology perspective. We do everything an enterprise IT department would do to ensure that mission-critical systems are ready to support business requirements — but at a fraction of the cost.

- Real-time Monitoring
- Proactive Maintenance
- Support Center
- Backup Systems & Procedures
- IT Assessment & Planning
- CIO Services

Atlantic-IT.net helps law offices boost productivity and reduce overhead by enabling attorneys and their staff to focus on billable services rather than network issues. We also understand your unique security and confidentiality needs. Our staff, systems and processes are thoroughly vetted to help you meet the ethical and regulatory requirements of the legal field.
